

# Federico del Gaudio

Combat designer & Technical designer

## PROJECTS

### One Night In Venice (UE5 itch.io Game jam| Solo Project)

A tight, roguelite-inspired bullet hell shooter.

- Designed and programmed **4 distinct flying enemy archetypes** and a **boss** fight & balanced **TTK**.
- Enhanced **player feedback & Combat Responsiveness** by implementing **screen shakes**, **dynamic VFX**, and **sound-synced interactions** to maximize combat satisfaction.
- Designed & programmed a **roguelike progression system with data tables** featuring **4 stackable power-ups** that allow for emergent gameplay, boosting replayability by 80%.
- Iterated on **gameplay loops** and difficulty scaling, achieving a **35-minute average session length** during playtesting.

### Patch Me If You Can (Unity FPS Academy Project | Team of 11)

A **fast-paced** first-person shooter where you play as a voodoo tailor hunting your runaway creations.:

- Led combat design** for a team of **11 developers**: refined harpoon shooting mechanics & player **feedback**.
- Balanced **core** shooting mechanics and **3 distinct enemy** AI classes to optimize difficulty pacing.
- Proposed and **implemented** player feedback improvements based on data collected from 3 playtest.

### Pummel (UE5 Combat Prototype | Solo Project)

A 2.5D action game with combo-based melee combat against magical enemies.:

- Created **3-hit + air combo melee mechanics** using Blueprints
- Implemented** dynamic hurtbox/hitbox registration, attack **recovery frames**, and multi-state animation blueprints for seamless combo transitions.
- Built 2D animations and implemented **state machines** for attacks and AI behaviors

## EDUCATION

**2024 - 2026**  
Digital Bros Game Academy  
**Game Design** Course:

- Game mechanics **prototyping** (Unity & Unreal Engine)
- Game Design **fundamentals** & Game Systems
- Balancing
- Quality Assurance
- 3Cs **fundamentals**

**2019-2024**  
ITTS "O. Belluzzi L. da Vinci"  
**High school Diploma - Computer science**

## WORK EXPERIENCE

**2023-2023**  
**Internship 4 weeks**  
**Adrias Online, Rimini RN**

- Role: Front-end Developer

**Tasks and Activities:**

- Optimizing front-end performance for a better user experience using Javascript & HTML
- Testing multi-device compatibility

## CONTACTS

- +39 3914234046
- federico.delgaudio37@gmail.com
- [Linkedin/Federico del gaudio](#)
- [My Portfolio](#)

## SUMMARY

Combat & Technical Designer with a **strong** foundation in Unreal Engine (**Blueprints**) and **Unity**. Experienced in **prototyping** gameplay mechanics, balancing **combat systems** and collaborating in agile teams. Committed to delivering polished **gameplay feel** and balanced combat experiences

## HARD SKILLS

### Unreal Engine 5

- Blueprints — Visual Scripting
- Anim Blueprints & Montages
- Physical Animations & Hitbox
- Niagara VFX Integration
- UMG UI Designer

### Unity

- C#

### Dev Tools

- Visual Studio, VS Code, Version Control (Git / GitHub / Fork)

## DESIGN SKILLS

- Mechanics and Gameplay Design**
- 3Cs fundamentals**
- Combat design**
  - Enemy AI, Melee/ranged systems, Combo mechanics & Hitboxes
- Balancing & Tuning**
  - Cooldowns, damage & difficulty
- Prototyping in Engine**
- Detailed Documentation**
  - Weapon, AI, abilities & feedbacks
- Level design**
  - Combat-space integration
  - 3D, FPS & Top down integration

## LANGUAGES

- Italian (Native)
- English (C1 Professional)

## ACHIEVEMENTS

- Top 500 Overwatch & High-Level Valorant:** Elite competitive experience, analyzing high-level balance, TTK, and hero meta shifts.
